

Introduction to Biomedical Engineering: Fall 2024

Time and Location:

Thursday PM 1:10~4:00 @ EC3010

Instructor:

莊子肇, Associate Prof.

Office: EC8006, Dept. of Electrical Engineering

Phone: 07-525-2000 ext. 4196

Email: chuang@mail.ee.nsysu.edu.tw

Office hour: Mon PM2-4; Tue PM 2-4 (by appointment)

Prerequisites:

普通物理學、電子學、信號與系統

Textbooks/References: 請遵守智慧財產權觀念，不可非法影印

“Introduction to Biomedical Engineering”, John Enderle and Joseph Bronzino, Academic Press 2011 (3rd edition)

“Medical Instrumentation: Application and Design”, John G. Webster and Amit J. Nimunkar, Wiley 2020; (5th edition)

“Medical imaging signals and systems”, Jerry Prince and Jonathan Links, Pearson Prentice Hall 2014 (2nd Edition)

Google Classroom Code: **zfpe5xn**

<https://bmilab.ee.nsysu.edu.tw/lab/course.html>

(Class notes and news are also released here.)

Schedule:

9/12	Introduction
9/19	Bioelectric phenomenon
9/26	Biopotentials
10/3	Biopotentials
10/10	放假 (國慶日)
10/17	Biomedical sensors

10/24	Biopotential amplifiers
10/31	Biosignal processing
11/7	Midterm
11/14	Circulatory system: Blood pressure and sound
11/21	Circulatory system: Flow and volume of blood
11/28	Respiratory system
12/5	Medical imaging (I): X-ray and CT
12/12	Medical imaging (II): Nuclear medicine and ultrasound
12/19	Medical imaging (III): Magnetic resonance imaging
12/26	Final

Grading:

Homework	40%
Midterm	30%
Final	30%
